FOR IMMEDIATE USE – April 13, 2021

Tenaska Recognized as a US Best Managed Company

OMAHA, Nebraska – Tenaska, one of the leading independent energy companies in the United States, has been selected as a 2021 US Best Managed Company. Sponsored by Deloitte Private and The Wall Street Journal, the program recognizes outstanding U.S. private companies and the achievements of their management teams.

The 2021 designees are U.S. private companies that have demonstrated excellence in strategic planning and execution, a commitment to their people and fostering a dynamic, resilient culture, as well as strong financials, all while facing the uncertainty of the COVID-19 pandemic. Despite major challenges and immense pressure, they continued to lead with purpose and the vision to make significant contributions to their industries, communities, workforces and the economy.

“Tenaska’s corporate culture is rooted in a strong work ethic with the highest standards of excellence; a commitment to pursue value for customers and partners; and relationships built on trust and fair dealing,” said CEO and Vice Chairman Jerry Crouse. “This designation recognizes the values that have been both foundational to our growth and a great source of pride.”

Founded in Omaha, Nebraska, in 1987, Tenaska set out to build one or two power plants and has grown into a diverse energy company with expertise in natural gas and electric power marketing, energy management, development and acquisition of energy assets, operation of generating facilities and much more. Today, it has offices and plant locations across North America.

Tenaska has developed, managed and/or operated approximately 22 gigawatts of natural gas-fueled and renewables generation to date. Affiliates Tenaska Marketing Ventures and Tenaska Power Services Co. are recognized leaders in energy marketing.

Applicants are evaluated and selected by a panel of external judges focused on assessing hallmarks of excellence in four key areas: strategy, ability to execute, corporate culture and financial performance. They join a global ecosystem of honorees from more than 30 countries recognized by the Best Managed Companies program.

About the Best Managed Companies Program

The Best Managed Companies program is a mark of excellence for private companies. U.S. designees have revenues of at least \$250 million. Hundreds of private companies around the world have competed for this designation in a rigorous and independent process that evaluates four key criteria in their management skills and practices — strategy, execution, culture and financials. U.S. program sponsors are Deloitte Private and The Wall Street Journal. For more information, visit www.usbestmanagedcompanies.com.

About Tenaska

Tenaska is one of the leading independent energy companies in the United States, with a reputation for high standards and expertise in natural gas and electric power marketing, energy management, development and acquisition of energy assets, and operation of generating facilities. *Forbes* magazine consistently ranks Tenaska among the 50 largest private U.S. companies. Gross operating revenues were \$7.7 billion in 2020.

Tenaska has developed, managed and/or operated approximately 22 gigawatts (GW) of natural gas-fueled and renewables generation. Its development portfolios include more than 16 GW of solar, wind and energy storage projects. The current Tenaska operating fleet includes 7.5 GW of generating facilities.

Tenaska Marketing Ventures consistently ranks among the top five largest natural gas marketers in North America and is the top-ranked natural gas pipeline capacity trader. Tenaska Power Services Co. is the leading U.S. provider of energy management services to generation and demand-side customers.
